HISTORICAL HERITAGE

From the opening of its doors in 1912 as a normal school for training teachers to its present status as one of Tennessee's two comprehensive universities, Memphis State has been thrust forward by the growth of Memphis and the Mid-South. A town oriented to a rural economy and culture in 1900 grew into a large urban and commercial center by mid-century, and the city's public institution of higher learning experienced comparable growth.

The normal school grew from a few hundred students (1912-1925), to a teachers' college with a better staff and an enrollment of up to a thousand (1925-1941), then to a state college with an expanded curriculum in liberal arts, business and graduate education for three to four thousand students (1941-1957), until the institution achieved university status in 1957.

It was not an easy struggle. As the city of Memphis grew and prospered, the demand for a completely developed public university grew. Finally, legislators and board members agreed about Memphis State's role and approved the change urged so forcefully by concerned local citizens, several presidents, alumni and faculty members.

The metropolitan requirements for more highly trained university graduates have, of necessity, caused Memphis State to expand all its offerings in arts and sciences, business, the fine arts, education, engineering and technology, law, and several special professional fields. More than 75 percent of the full-time faculty have earned the highest possible degree in their fields.

As enrollment settles in the 20,000 range, Memphis State is committed to developing programs of the highest quality, for only through such a commitment will it be a standard of quality in higher education for the citizens of the State of Tennessee. Every Memphis State student is expected, upon graduation, to be able to compete effectively with his or her counterparts from any other respected university in the nation.

ACADEMIC DRESS

The following information is to help our visitors identify the costumes seen in the commencement procession.

Academic dress originated at universities in the Middle Ages when a warm gown and hood were necessary in unheated buildings. For centuries these gowns distinguished students from their fellow citizens; sometimes this distinction in dress symbolized unfortunate controversies between "town and gown". The European habit of using academic robes came to this country in the eighteenth century with the founding of what is now Columbia University. In 1895 American universities and colleges standardized their styles of academic costumes, and this system, with occasional modifications, is still in force. Today the various colors, trimmings, and patterns of gown, hood, and cap are all traditional and symbolize both the degree and field of learning.

GOWNS: American academic gowns are usually of black material, and their pattern varies with the degree held. The bachelor gowns are relatively simple in design with a closed front and long, pointed, open sleeves. Master's gowns have an open front with long, colored sleeves, the arms extending through a slit at the elbow, giving the appearance of short sleeves. Doctoral gowns are the most elaborate with velvet panels down the open front and three velvet bars on the bell-shaped sleeves.

HOODS: The hoods, differing in length for the three degrees (bachelor's, master's, and doctor's), are lined with the colors of the institution that granted the degree. Hoods are also trimmed with the color that heralds the major field of learning.

CAPS: A square mortarboard is the approval headgear. The tassel, fastened to the middle point of the top of the cap, is black or the color appropriate to the subject; it may be gold if the holder has a doctor's degree. Memphis State University has adopted the practice of having candidates for the bachelor degree to wear the tassels on the right front side before degrees are conferred and to shift them to the left at the moment when the degrees are awarded to them.

Following is a list of the hood and tassel colors that represent several categories of learning.

Arts, Letters, Humanities	White	Home Economics	Maroon
Audiology & Speech Pathology	Dark Blue	Journalism	Crimson
City & Regional Planning	Scarlet Red	Law	Purple
Commerce, Accountancy, Business	Sapphire Blue	Music	Pink
Communication Arts	Silver Gray	Nursing	Apricot
Economics	Copper	Physical Education	Sage Green
Education	Light Blue	Public Administration	Peacock Blue
Engineering	Orange	Science	Golden Yellow
Fine Arts	Brown	Social Work	Citron

All hoods are *edged* with the above colors. These same colors may be used for the facing and sleeve bars of doctoral gowns and tassels on bachelors' and masters' caps.

The *lining* of the hood indicates the university granting the degree—for Memphis State University, blue and gray. Among other institutional colors represented at this commencement are those for Arkansas, red and white; Chicago, maroon; Columbia, light blue and white chevron; Duke, royal blue with white chevron; Emory, navy blue with gold chevron; Harvard, crimson; Illinois, navy blue with two orange chevrons; University of Iowa, old gold; Kansas, navy blue with cardinal chevron; Northwestern, purple with gold chevrons; Ohio State, scarlet with silver gray chevron; Rice, silver above blue; Texas, white above orange; Vanderbilt, black and gold; Wisconsin, bright red; Yale, royal blue.

**UNDERGRADUATE
CANDIDATES FOR DEGREES**

GRADUATION WITH DISTINCTION

Based on a grading system of "A" as 4.0, three
designations of graduation honors are recognized.*

Summa Cum Laude	With Highest Distinction
Magna Cum Laude	With High Distinction
Cum Laude	With Distinction

GRADUATION WITH HONORS

With the approval of the University Honors Council, Memphis State University offers several departmental honors programs. These programs involve a combination of special honors course work, independent study, and usually an honors thesis or project. Students who successfully complete a departmental honors program are awarded their degrees with honors in their area of concentration (e.g., With Honors in English).

*Note: Because of time limitations imposed in preparing this program for commencement, listing for graduation with distinction was based on a minimum of forty-five (45) graded semester hours and the grade point average as of the term prior to the final semester. Final determination of graduation with distinction will be based on a minimum of fifty (50) graded semester hours, including the final semester, and on the cumulative grade point average as of graduation.

THE COLLEGE OF ARTS AND SCIENCES

Candidates presented by Dean John H. Wakeley, Ph.D.

The aims and purposes of The College of Arts and Sciences are summarized in these words which serve as part of our official statement in the catalog issue of the University Bulletin: "The program of liberal studies aims (1) to provide students with a store of factual knowledge; (2) to introduce them to varying sets of principles; (3) to stimulate them to think about and to evaluate these facts and principles; and (4) to encourage them to order their own affairs and those of society with the talent, insight, and discrimination which they develop." We have been privileged to pursue these aims with the following students who are candidates for the four degrees which we offer:

BACHELOR OF ARTS

Candidates for this oldest of the traditional baccalaureate degrees are students whose majors have been in the humanities and the social sciences, with various electives from other areas of the University:

THE FOGELMAN COLLEGE OF BUSINESS AND ECONOMICS

Candidates presented by Dean M.E. Bond, Ph.D.

The Fogelman College of Business and Economics offers only one undergraduate degree, the Bachelor of Business Administration degree. The goal of the undergraduate program of the Fogelman College of Business and Economics is to provide the basic education needed to prepare a man or woman to enter the field of business and to move rapidly from an entry level position to a managerial level of work.

We believe the curriculum which best accomplishes this goal consists of four components. First, a broad foundation of course work is provided in the liberal arts and sciences. At least 40 percent of the work taken by each student in the Fogelman College of Business and Economics is in the humanities, the social sciences, the natural and physical sciences, communications, and mathematics.

Second, the curriculum includes a significant amount of study of the economic and legal environment of business and introduces each of the major functional fields of business—accounting, management, and marketing.

Third, the curriculum provides for a choice of a major by the student. He is permitted to select his major from accounting, economics, finance, insurance, real estate, business management, marketing, international business, or office administration. Within most majors there is opportunity for the student to select a more specialized area of concentration, such as personnel management, advertising, economic theory, secretarial science, and so on.

Fourth, the Bachelor of Business Administration curriculum offers the opportunity for the selection of free electives. Through these electives, the student may select courses particularly suited to his or her own interests, thus providing an opportunity for the student to pursue greater breadth or greater depth of study of business or other fields.

THE COLLEGE OF COMMUNICATION AND FINE ARTS

Candidates presented by Dean Richard Robert Ranta, Ph.D.

The College of Communication and Fine Arts is ultimately focused upon visual and audible symbols, whose rational and emotional values it is the mission of the College to create and explore. In the belief that perception is largely shaped by experience, the College of Communication and Fine Arts offers a range of symbolically rendered experiences, both individual and collective, in the hope of broadening and sensitizing the perceptions of its students.

Through its various professional courses of study, it prepares students to work toward careers in the fine or applied arts, communication, or the performing arts, whether as practitioners, teachers, artists, or consultants. The College offers four degrees by which to accomplish its purposes:

BACHELOR OF ARTS

Candidates for the oldest of the traditional baccalaureate degrees are students who have majored in art history; journalism with concentrations in either advertising, broadcast news, public relations, or news editorial with emphasis in magazine, newspaper, or photojournalism; applied music; music history and literature; or theatre and communication arts with concentrations in broadcasting, communication, film and video tape production, general speech and theatre, or theatre.

THE COLLEGE OF EDUCATION

Candidates presented by Dean Robert L. Saunders, Ed.D.

The College of Education pursues six stated goals to help the University achieve its basic purpose, the advancement of learning. One of the six goals is highlighted at each commencement. This goal is "to provide preparation programs which produce teachers and certain other professional personnel sufficient in quantity and competence to help meet the needs of the state, region, and nation."

The several undergraduate preparation programs provided by the College of Education lead to three baccalaureate, professional degrees: the Bachelor of Science in Education, the Bachelor of Music Education, and the Bachelor of Science in Home Economics.

Each of the degree programs consists of three basic components. General Education courses comprise approximately 45% of each degree program. Professional courses make up from 25% to 40% of the total, depending upon the particular programs followed. The remaining portion is used to develop one or more specializations.

In addition to their prescribed courses, graduates of the various degree programs are required to meet criteria related to their personal and professional fitness for their chosen careers. Field-based laboratory experiences are included in all preparation programs in the College.

BACHELOR OF SCIENCE IN EDUCATION

Candidates for this professional degree have studied in programs covering six broad fields: curriculum and instruction, distributive education, health and physical education, home economics education, library service, and special education and rehabilitation. These several teacher education preparation programs cover eleven majors which, in turn, are subdivided into some forty academic teaching endorsements. The College of Education also offers through this degree majors in the non-teaching fields of recreation and park administration and rehabilitation education.

THE HERFF COLLEGE OF ENGINEERING

Candidates presented by Dean Orville E. Wheeler, Ph.D.

The Engineering College's function is to provide education and research opportunities in the principal fields of engineering and engineering technology for the benefit of the industries and agencies of the metropolitan area, the state, and the nation. This purpose is accomplished by providing professional education in the principal fields of engineering, instruction for majors and minors in geology, education in the major areas of four-year engineering technology, and graduate education in all areas. The programs in engineering and engineering technology are accredited by the prestigious Engineers' Council for Professional Development. The following are the degrees offered with the appropriate concentrations within the respective areas:

BACHELOR OF SCIENCE IN CIVIL ENGINEERING

Candidates for this degree have majored in civil engineering with a concentration in environmental engineering, foundation engineering, structural engineering, or transportation engineering.

THE UNIVERSITY COLLEGE

Candidates presented by Dean H. Ramsey Fowler, Ph.D.

The mission of University College is to serve the educational needs of students whose career and personal goals require a non-traditional degree program. Mature, motivated students working closely with a committee of faculty advisors of study. To assume responsibility for designing an individualized concentration requires an unusual degree of independence, certainty of direction and maturity. It is not surprising therefore that the students of University College range in age from 17 to 65 with an average of 32 years. The degrees awarded by the College are the Bachelor of Liberal Studies and the Bachelor of Professional Studies.

For the faculty of Memphis State, University College offers an arena to explore new interdisciplinary forms of education at all levels of the curriculum. Indeed, the faculty of University College is drawn from the other five undergraduate colleges of Memphis State. Over 140 members of the Memphis State faculty from 40 departments now serve University College as advisors or instructors.

With its emphasis on interdisciplinary education which bridges the departments, University College offers to students and faculty alike an educational experience which uses new means to achieve old goals—the close relationship of life and study, the interrelatedness of human knowledge, and the application of that knowledge to the important issues of our time.

CECIL C. HUMPHREYS SCHOOL OF LAW

Candidates presented by Dean Nicholas L. White, J.D.

The faculty of the School of Law is proud to present for conferral of the Juris Doctor degree the men and women who have successfully met all of the requirements for graduation as established by the School of Law. These graduates are not only prepared to enter into the practice of law at this time, but they are prepared for a lifetime of leadership in the legal profession. The School of Law endeavors to inculcate in each graduate a sense of responsibility to improve the providing of legal services to all persons and segments of society. Above all, the School of Law endeavors to impress upon each graduate the necessity for maintaining high ethical standards which are expected of lawyers in today's society. These graduates are entering a profession that is vital to the preservation of a free and democratic society, and they are well prepared for the challenges that lie ahead.

**THE DEPARTMENT OF AEROSPACE STUDIES
AFROTC DETACHMENTS NR 785
CANDIDATES FOR AIR FORCE COMMISSION**

The Department of Aerospace Studies offers a curriculum to prepare men and women for commissioned service in the United States Air Force. The courses and Leadership Laboratory are designed to complement the student's work in his major field of study. A minor in Aerospace Studies is offered to those who complete 18 semester hours of Air Force ROTC courses.

The General Military Course, open to all University students, comprises four semesters of survey-level instruction on the development and organization of the Air Force. A month of summer training at an active Air Force base leads to membership in the Professional Officer Course for selected cadets and applicants from the University at large. During their final two years of graduate or undergraduate schooling, Air Force ROTC cadets study comprehensive courses in Leadership and Management, American Defense Policy and Flight Theory. Candidates for pilot training complete a course of 25 hours of flight instruction in light aircraft. The cadets organize and conduct a broad range of extracurricular activities to develop leadership skills and managerial experience to meet the course objectives of Leadership Laboratory.

Upon graduation and completion of the Air Force ROTC program, the cadets are commissioned as Second Lieutenants and assume the responsibilities of managing our nation's Aerospace defense resources.

NATIONAL ANTHEM

Oh, say can you see by the dawn's early light
What so proudly we hail'd at the twilight's last gleaming,
Whose broad stripes and bright stars through the perilous fight
O'er the ramparts we watch'd were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there.
Oh, say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

ALMA MATER

Stand firm, O Alma Mater,
Through all the years to come;
In days of youth and beauty
Thy halls have been our home.
In time of preparation
Great lessons didst thou teach
Til now, O Alma Mater,
The stars we'll strive to reach.
